A NEW YORK FIRE TRAP.

A FIVE-STORY TENEMENT IN NEW YORK WRAPPED IN FLAMES.

Sixty Odd Occupants In the Building and Nine are Known to be Burned to Death-The Loss Will Not Ex-

NEW YORK, August 19.—Early this morning a fire broke out in the kitchen of the restaurant on the store floor of the big five-story tenement at 305 Seventh avenue. Nine of the sixty odd occupants of the house lost their lives, and it is a great wonder that many more did not perish. The

The list of injured is:

JOHN GLERMON, badly burned and injured.
The building was occupied by thirteen families, who have been made temperarily homeless by the fire. The fiames did not do very much damage in the various apartments, but burned out their strength in the hallways. The pecuniary loss will not amount to more than \$10,000. The fire originated in the rear of John Snyder's restaurant at an hour when all the people in the house were sleeping soundly. Just how the fire started is, as yet, a mystery, but, as the restaurant cook is missing, it is fair to presume that an accident occurred while he was making the fire in the big range. The awful speed with which the flames swept up through the building suggest the use of kerosene by the careless cook.

out from the roof and lighted up the neighborhood.

With their clubs the two officers beat in the front door, but a spiteful blaze shot out and warned them back. They tried the next door and in that way found an entrance. There was no sign of life in the building and the officers hurried from one door to another tot arouse the inmates. Murmurings at first were heard, then a buzz of many voices, which finally changed into a wall of agony and terror from men, women and children struggling for their lives in the death-trap. Fire escapes leading from the burning building to the as yet untouched tenement next was soon filled up with half naked people, frantic to reach the street. In the meantime the fire department had arrived and had begun work on the flames, and were assisting in rescuing the frightened inmates. The flames were extinguished easily enough by the firemen, and the people on the fire escapes were all landed safely. Not one person escaped down the stairway, and the names of those who tried it are found in the list of the dead printed above. The search for the dead was begun as soon as possible. The first body found was that of old Wm. Glennon. The remains were discovered by the side of the bed in his room on the second floor. He had risen to fly with his sons, but his old legs were not nimble enough, and he perished. The boys were taken to the hospital. They were badly burned on the feet, caused by walking on the hot iron bars of the fire escape.

In the middle of the floor knelt the mother, Mary Wells, and in her dead embrace were her children, Jane and Thomas. They had been smothered, mercifully enough, and not a burn or blister defaced the pallor of their countenances.

Bailroad Trains Run Wild.

MINNEAPOLIS, August 19.—A Journal special from Owatom, Minn., says: A gravel train on the Northwestern Railway was backing into the gravel pit near this city this morning when part of the train became uncoupled from the engine on top of the grade and the train went flying down the incline, up again on the other side, running clear across the road, striking J. O. Eastman's house, a distance of about seven rods from the end of the track, shattering the wing portion of the house to pieces and knocked the main part about eleven feet from its foundation. The family had all gone up from below but one little girl, who narrowly escaped being killed. She was quite seriously injured.

BALTIMORE, Md., August 19.—An engine standing at Fulton Station in this city this morning suddenly started, from some unknown cause, and ran eastward with great speed, running through a long tunnel under the city, and passing Union Station at the rate of sixty miles an hour. As it neared Calvert Station a watchman saw it coming, and knowing that the train filled with passengers was standing at Calvert, with great presence of mind, switched the engine on

An Advance in Sates.

Pittisburg, August 19.—Circular No. 1,019, just issued by the joint committee of the Central. Traffic Association, announced an advance in the pig-iron and special iron tariff to twenty-five cents for car-loads and thirty cents for less than car-loads. The advance takes effect September 1, and is between New York and Chicago both ways. This makes the rate from Pittsburg to Chicago 12½ and 15 cents, whereas it was formerly 11 and 14 cents.

ILLINOIS MINING TROUBLES.

The Strikers Will Accept Nothing Less than Last Year's Prices.

Chicago, August 19.—A special from Spring Valley, Illa., says: The miners' delegates to the Chicago arbitration meeting returned Saturday evening, and yesterday afternoon the miners assembled in mass meeting to hear their report. The miners will stand by their resolution adopted a few weeks ago, not to go to work at anything less than last year's prices, with the same rules and regulations as worked under last year. No compromise will they accept. They are stubborn and determined to fight the battle out to the bitter end. Though they have already been out on a strike three months unsuccessfully, they appear to be confident of ultimate victory.

It is the general opinion that the Spring Valley Coal Company does not intend to let its mines remain idle this winter, and will import men, perhaps negroes, if necessary. There will no doubt be more rioting and bloodshed before the matter is settled. The striking miners will probably never work in these mines, Most of the single men here will seek work elsewhere and not remain at

The door leading from the kitchen to the hallway was found open, and the great volume of flame rolled out into the passage and swept up the stairway so rapidly that families living on the first floor must inevitably have perished without even so much as a warning, but it so happened that the rooms directly over the restaurant were unoccupied, on account of the heat which seemed to sift through the flooring from the mammoth range underneath.

Less than half a block away, on the corner of Twenty-eighth street and the avenue, stood Policemen Warner and McCullagh, of the Thirtieth Street Station. They received a warning from a cry of pain which came from the building, and looking in the direction whence it came saw a wall of fire beating against the front windows of the restaurant. By the time that a realizing sense of what the trouble was broke over them a forked tongue of flame shot out from the roof and lighted up the neighborhood.

With their clubs the two officers beat in Warner and the world of the passage and swept up the stairing against the front windows of the restaurant. RICHMOND, August 19.—Mr. E. G. Hill, the well known florist, president of the National Association, has just arrived frog Europe. He reports a novel experience, as he and his companion, Mr. Robt. George, of Painesville, Ohio, were on a train en route from Belfort, France, to Basie. The train was stopped at the neutral line between France and Alsace-Lorraine, and Nir, Hill and George arrested as spies. They and their baggage were searched, their passports disregarded, and they were not allowed to cross the line. Mr. Hill says the German officers were bull-headed and brutal, but the French were very considerate, and cried "Vive I/Amerique," when told the native land of the travelers. The latter were compelled to hire a French peasant to take them back to Belfort.

"OLD GABRIEL" LEARNED STONE-CUTTING OF JUNIPERO SERRA.

He was Acquainted with the Early Catholic Fathers on the Pacific Coast, and is Said to Be 150 Years Old.

CHICAGO, August 19 .- A special from

San Francisco says: For several years there has been domiciled at the Monterey County Hospital an Indian known by the name of "Old Gabriel." As to the exact day, month or year of his birth proof is absent, but of the fact that he has passed the wonderful age of 150 years there is a quantity of proof. Gabriel was born in Tulare County, but during childhood removed to the town of Monterey. Father Junipero Serra arrived in Monterey in 1770, and it is well authenti-cated that at that time Gabriel was a grandfather. The youngest age at which an Indian married was fifteen years. If Gabriel followed the custom and married at that age he would necessarily have been at least thirty-two or thirty-three years old to have been a grandfather at the time of Father Junipero's landing there. Father Junipero taught Gabriel the art of cutting and laying stone, and at the time of the building of the first chapel in the years 1771 and 1772 Gabriel assisted in the construction of the walls. He became so expert at his trade that he managed and assisted in the construction of the San Antonio Mission in 1781. He was then married to his second

A LONG LOST PROCESS.

A Species of Painting Practiced by the Ancient Egyptians. [Saturday Review.]

In the older Egyptian mummies the face of the outer easing is usually modeled in relief, in a purely conventional way, but in this latest form of burial under the Roman Empire a portrait of the deceased was painted on a very thin piece of wood and then fixed over the dead face. It is very remarkable to find such fine coloring and skillful drawing in work of this late date, which must have been turned out of an ordinary undertaker's workshop. The por-traits, both male and female, are most vivid and life-like. The ladies are mostly dressed in a purple garment and the men in white, with a red orphrey. The modeling of the flesh is very skillful and in some cases the

coloring reminds one of the Venetian school from its rich depth of tone. A special point of interest about these paintings is their technical execution in hot paintings is their technical execution in hot wax, or encaustic process, as it was called. The pigments were mixed with melted wax and then fixed in their place by holding a charcoal brazier near the surface of the painting, as is described by Vitruvius. The somewhat lumpy impasto of the surface is due to the hardening of the melted wax when the brush touched the cold surface of when the brush touched the cold surface of the panel, and owing to the non-absorbent nature of the wood, the subsequent applica-tion of heat was not able to drive the wax below the surface, as was the case with encaustic painting upon stucco. One of these portraits is noticeable from its ornamental raming with a flowing pattern, formed by pressing wood stamps upon soft stucco, which was afterward gilt, a process which is exactly like that which is so often used to decorate mediæval pictures on panel, es-pecially retables or ancone, as the Vene-

Descent Into the Grand Canyon.

St. Louis Globe-Democrat.

"I went to the bottom of the Grand Canyon of the Colorado last winter," said W. r. Hart, "and am one of the few men who ever attempted the descent. I went there ever attempted the descent. I went there to examine a mine said to exist in the bottom of the canyon. I have been all through the Rockies, from Montana to Central America, and know what a chasm is, but the sight of that abyss took my breath away. From the top to the bottom it is full 6,000 feet. Over a mile below you can see the river tearing through the gorge, but not a sound can be heard, it is so far away. From one bank to the other it is apparently not over a quarter of a mile, but as a matter of fact it is fully nineteen niles. My guide told me I would never be able to reach the bottom, but I was determined to go, and I went. It was a terrible climb, and it took the view.

Using the Unemployed.

[Roston Heraid.]

One of the arguments advanced in the English discussion of the eight-hour movement is that it would bring into service, if the present rate of production were maintained, nearly a million laborers who now have little or nothing to do and would thus have little or nothing to do, and would thus reduce pauperism in England to that ex-tent. This will be equivalent to cutting off one-fifth of the income of those already emone-fifth of the income of those already employed, since they will earn one-fifth less than they do under present circumstances. But it is argued that the relief of the support of one million laborers to this extent would be felt both by the State and the laboring classes. Diminished taxes for the State would mean a readjustment of the cost of living, and the entire reconstruction might result of the above the state where the might result, after a short interval, in a bet-ter social condition in England than exists at present. Whatever difficulties may rise the social reformer a bright side; and it is ment is to be counted op.

Development of Indian Intelligence.

Mrs. Alice C. Fletcher, long identified with work among Indians and a special agent for the allotment of lands, now at work among the Nez Perces in Idaho, reports to the Commissioner of Indian Affairs, in regard to the good conduct and usefulness of the young Indians who have been educated in the outside training schools, as follows: "Their knowledge of English, their glimpses of the outside world, of hearing something talked of that touched upon wider interests than can exist upon a reservation, their experience of living in the midst of white men—all these conditions have developed boys and girls into intelligent men and women. Now that troubles have come, and the operation of a law is enforced that was never explained to any of the Indians until my arrival, these boys and girls have read the law, have answered the objections of the older men and desire the emancipation that allotment brings the Indian."

The Biggest Gold Nugget. There have been big gold nuggets found in various countries, but the largest that was ever discovered, "The Silver Dollar" states, was found in New South Wales, Australia. It was unearthed on May 10, 1672. Its weight was 640 pounds, hight four feet nine inches, width three feet two inches, average thickness four inches; and it was worth \$148,800. It was found imbedded in a thick wall of blue slate at a depth of 250 feet from the surface. An in teresting feature of its history was that the owners of the mine were living on charity when they found it.

Yancy was appointed Inspector by Professor Collett, Governor Hovey's appointee to the office of Chief of the Burea of Geology and Natural Science; and Hyde received his commission from S. S. Gorby, who claims to be State Geologist by virtue of election by the last Legislature. The real object of the present suit is to determine who is entitled to the office of State Geologist. When Professor Collett instituted suit against Gorby two months ago, the latter delayed a hearing of the cause by pleading that he was a resident of Dearborn County. The pleading necessitated the bringing of the suit in that county, where it can not be heard until the latter part of next month. of Geology and Natural Science; and Hyde

the suit in that county, where it can not be heard until the latter part of next month.

In the meantime both Hyde and Yaney have been officiating as oil inspectors, and the result has been great confusion. Oil manufacturers and dealers have not known which of the two inspectors they should recognize, and there has been a general demand from them that the question should be determined. Mr. Yancy says he thinks the oil dealers have a right to know to whom they should pay their fee, and he, therefore, brings the present suit.

An immediate hearing of the case will be asked, so that the Supreme Court can pass upon the question when it convenes September 16. Attorney General Michener and his assistant, Mr. Gillette, will represent the State in the suit, while Mr. Yaney and Professor Collett will be represented by A. J. Beveridge and A. C. Relating to the Railroads.

Passenger No. 2 of the Big Four Road arrived several hours late this morning, owing to a freight wreck near Kankakee. The authorities say that the freight jumped the track throwing two cars into a ditch and causing a damage of about two hundred dolars. No one is reported hurt.

The railroads were unusually busy with live stock last week. Stock to the number of 1,04 car-loads was handled by the Beit.

The Pennsylvania and Big Four lines will sell four-dollar round-trip tickets to Chicago, good ten days, beginning to-morrow and continuing a few days. This reduction is due to the reduction in rates to the Milwaukee encampment. Many would have taken advantage of these rates to go to Chicago, and it was thought as well to make a Chicago rate.

The Interstate Commerce Law.

When the Interstate Commerce bill was

Tax making of drunkenness a crime punishable by law, as has been done in Minnesota, is an experiment which will be viewed with a great deal of interest. WHAT IS A FIRE?

An Insurance Suit in Which This Ques tion Was the Point at Issue. Irish Law Times.

A curious point of law bearing upon the responsibility of insurance companies has just been decided in the Paris law courts fifth chamber of the Civil Tribunal of the Seine), at the suit of the Countess Fitz James against the Union Fire Insurance Company of Paris, by which it is ruled that insurance companies must indemnify all losses sustained by an assured caused by fire, even in cases where no destruction of premises has been caused by conflagration. The Countess Fitz James insured against fire in the above company all her furniture and effects for 258,000 francs, and in her policy, under article 7, were mentioned her jewels, among which figured specially a pair of earrings, composed of fine pearls, valued at 18,000 francs. Justice Field Twenty-five Years Ago.

[Chigago Herald.] Twenty-five years ago United States Justice Field, whose name is connected with the sensational tragedy in California, would have scorned to be under the protection of a Government detective. At one time no man was more capable of taking care of himself. He went to California in the early days and roughed it with the multitude of other fortune-seekers who sought the land of gold. He was a leading member of the less the stronger roads are allowed in some way to protect the weaker ones.

A MARVELOUS LACE-WORKER. A Study of the Spider as it Spins Its Web -The Legend of Arachne, [Public Opinion.]

Every one has noticed the cobwebs which hang upon each shrub and bush, and are strewn in profusion over every plat of grass on a fine morning in autumn; and, seeing, who can have failed to admire? The webs, circular in form, are then strung thick with tiny pearls of dew that glitter in the sun. thy pearls of dew that gitter in the sun. No lace is so fine. Could any be wrought that would equal them in ther filmy delicacy and lightness, it would be worth a prince's ransom. But for such work man's touch is all too coarse. It is possible only to our humble garden spider, known to scientific people by the more imposing name the family of Arachneta; and the ancients, who were great lovers of beauty, observing their webs, invented the pretty fable of Arachne. Arachne was a maiden who had attained to such expert-ness in weaving and embroidering that even the nymphs, leaving their groves and fountains, would gather to admire her work. They whispered to each other that Minerva nerself must have taught her; but Arachne had grown vain as she grew dexterous, and, overhearing them, denied the implication with high disdain. Blast From a Railroad Man.

To the Editor of The Indianapolis News:
Speaking as a disinterested looker-on in the distribution of party prizes, it looks to me as though the policy as preached by our party before the election was being sadly neglected since. If my memory serves me right, and I think it does, the party organs of our side were always ready to jump on "Grover" for appointing some "ward bummer" to a good fat office. I think there are instances since March 4, 1880, that the opposition have had as much cause to blow about "ward bummers" being appointed as our papers ever had, and this very much at the expense of a class of people who did the timely work in this State, and who are being entirely ignored. In the first place there is not the least shadow of a doubt but what, if the Sentinel had not been "too swift" in coming into the campaign with the railroad strike of 187, that there would have been no railroad clubs formed in any part of the State. But when that affair was started as the first gun of the campaign the railroad men took hold of that part of the campaign—and nailed it fast and went to work with a will, formed clubs all over the State, and were being recruited even up to the last meeting night before election. The roster of the Harrison and Morton Railroad Club of Indianapolism have been in the neighborhood of 1,500, and they were all bons fide railroad men. Then there was a club at Terre Haute of over 200 members, and clubs at Evansville, Richmond and other points, so that the total membership of the railroad club sunst have been a,000. We all know by what plurality Harrison and Morton carried Indiana, that it was considerably below 3,000, and but for the To the Editor of The Indianapolis News: ones, and this proves it."

The popular Crœsus of Spain has just died, in the person of the Marquis de Urquijo. His executors have paid into the Spanish Treasury succession duties amounting to £96,000 on his fortune, which exceeds £5,000,000. This was gained in fifty years. The owner had begun life as a Basque village lad, and died a Senator, grandee, and ex-Mayor of Madrid. He left £180,000 in bequests to charities in his native province.

earnest and timely work of the railroad men he never would have carried Indiana; and if these clubs had not been organized it is hard to tell what effect the Sentinel's campaign might have had on New York, Himos and other States, especially in Henois, where the feeling was red-hot about the 1877 affair until nailed by the railroad men. (The Q. strike was on at the time, as they all anow, and if we had faltered then the opposition could have had fine ammunition to send those men.) I can name several of the old-time red-hot Democrats of Indianapolis who voted for Harrison on account of the Railroad Club of Indianapolis and the work done by them. Harrison himself knew what figure we were cutting in the campaign, and seemed to be clear gone on us, but after the election there were no offices for our people. No; they must go to the "ward bummers," who had already been paid two or three times the price of their services. There are a lot of good men who were in our club and who presented a No. 1 petition to General Harrison. But he has forgotten the club now, and must give the appointments over to the machine. Charles Manning and Coionel Shaw were after the Marshalship, but a delegate must have that. Captain Harvey would take the Deputy Collectorship, but a "shining machine light" of the Fifteenth Ward, who never turned his hand over but what he got paid for it out of the party treasury, and never made a Republican vote as long as he was in the Fifteenth Ward, is liable to be appointed, if not already appointed. Then the office of Storekeeper, etc. the party treasury, and never made a Republican vote as long as he was in the Fifteenth Ward, is liable to be appointed, if not already appointed. Then the office of Storekeeper, etc., at Mount Jackson will probably go to some of the machine gang, where there are several good men after it, among them a railroad man. The people who are catching on are men who have no petitions, which goes to show that the machine is running it. They even say, "We don't need any petition!" while every railroad man who has asked for anything yet has had a No. 1 petition. It may be that a railroad club would be acceptable again in 1892; but if so, I think there will be few out of the 1888 club in it.

These are all facts and are only a few pointers for the benefit of the party. Probably they don't know or even care about them

pointers for the benefit of the party. Probably they don't know or even care about them just now, but it might be well to stop awhile and look at some of the petitions and see who are on them and who is making the request before they are all ignored for the benefit of a gang of 'ward bummers.'

The writer is in no way an applicant for any Government position, but if the party wishes to better the service and respectability of all opartments, then a little more attention must be paid to the wants of the people and not so much to the machine.

The City's Opportunity.

To the Editor of The Indianapolis News:

If Indianapolis is not to be kept permanently in the rear, in the struggle now going on in the gas district of Indiana, for wealth and presperity, our citizens must wake up, 2nd that promptly. Before the year has closed Muncie will have trebled her population and Guadrupled her business—all in four years. Anderson, Marion and Kokomo have done almost as well. An explanation of Muncie's methods will answer for the others. When it comes to a question of their city's interests the people of Muncie lay aside party feeling and prejudice and act as one man. They put their most public-spirited men forward; men who can best boom their town, without regard to their politics. The result is that Muncie's interests are crowded to the front in a way that tells. Is there not a suggestion in all this of interest to us? Our city election comes on soon; this is the "off year;" no office of any political significance is to be filled this fall. Can't we do as they do in Muncie this time? Can't we lay aside our politics and select candidates for city offices in the interest of the city alone; men who will boom the town and take a pride in doing so. Let us have a man for Mayor who is public-spirited enough to give his time intelligently to the city's best interests, and who can and will influence capital and manufacturers to come here, and who will take pride in doing so. If any man wants to be Mayor for the political influence of the office, sit down on him at once. Can't Republicans and Democrats, this time at least, lay down their party feeling and elect some man who can and will push things—on a citizens' or people's ticket? For the sake of our city let us try it. To the Editor of The Indianapolis News:

THE THIRSTY POLITICIANS

ge for Office Increased by the Approach of the First Convention. The enforced nearness of the city convention is occasioning considerable political activity to-day. The situation in the city is not so inviting that modest men dash in to

not so inviting that modest men dash in to the rescue. There are politicians discreet snough to see that no party will have an inviting job in the next two years if put in possession of public affairs. Any one view-ing the streets and the immediate and fu-ture needs of the city, and remembering the financial straits of the corporathe financial straits of the corporation, will see that great responsibilities will rest on the next Council.
The total indebtedness of the city is about
\$2,000,000, and every year the city pays
about \$120,000 interest. August 1 there
was on hand \$81,000, but since the first of
the month about \$22,000 of that amount has
been used. The remainder is insufficient
for visible wants. The limit of the indebtedness has been reached, and no loan can
be negotiated except temporarily. There
is an immense amount of work
to be done, and Council hints that between
now and November 1 it will make another
of its "temporay" loans, the exact amount
of which Mr. Thalman, Chairman of the
Finance Committee, can not give.

of its "temporay" loans, the exact amount of which Mr. Thalman, Chairman of the Finance Committee, can not give.

With the debt limit passed, no money on hand and everything needing to be done, how are the streets to be improved? To compel the citizens to pay cash for improvements will be to impose an intolerable burden. The Barrett bill provides a relief. This divides the cost of street improvements into ten parts, one payable yearly. But the political contractors are making the bill odious, and so far no relief has been afforded. Meanwhile the streets get worse. The Street Commissioner says he has no money to work with. It is evidently no time for the people to expect adequate help from the politicians. It is a time for sensible business men to take hold of affairs.

The colored people are determined to have a candidate or two on the local Republican ticket, and have held several meetings on the subject. At a Third Ward meeting Henry Sweetland, Gabriel Jones and William Floyd were named as proper persons for a place on the city ticket for Councilman. Sweetland received 68 votes, Jones 36 and Floyd 2, and Sweetland was declared the preference. It is now to be decided whether or not the Republican managers will recognize him. Floyd announces that he will be a candidate for City Clerk. John Purysear, of the Fourth Ward, has been selected by the colored people as their candidate. It is not likely that the party intends to see these men nominated. In one of these wards, at least, it is hinted that the seheme is to make as much fuss and feathers as possible, under the cloud of which the corporation candidates will speed to success.

Mr. Tucker says that he is in no way a candidate for the Council so far as he may take any part in the nomination. If the voters of the Twentieth Ward see fit to nominate him he will make the race, but positively declines to seek the nomination, and leaves the choice of a candidate with the people.

The Republicans have decided upon a date for their city nominating convention.

The Republicans have decided upon a date for their city nominating convention. The City Committee Saturday evening adopted a resolution "that all ward primaries be held on Tuesday evening, August 27, at 8 o'clock, for the selection of ward committeemen and candidates for the City Council as far as practicable, and that in wards where day primaries are desired, such requests are to be passed upon and approved by the Executive Committee. All such requests must be made to and decided by the Executive Committee on Wednesday evening, 21stinst., at 8 o'clock, in the rooms of the Indianapolis Republican Club. COCKBUM TO SUCCEED CHAMBERS. United States Attorney Chambers Reported to be Desirous of Resigning.

trict Attorney Cockrum is at Deer Park conferring with President Harrison, has led a few of the posted ones to wonder if he won't succeed Smiley N. Chumbers as District Attorney before the fall term of

It is well known that Mr. Cockrum has such aspirations. Indeed, he has told a good many of his Indianapolis friends, so it is said, that it was the understanding that he would in the course of time fill Mr. Chambers's shoes. There are reasons for believing that Mr. Chambers is not at all fascinated with the duties of his office, and would be glad to retire if a comfortable opportunity was offered. Soon after assuming the duties of the office he was thoroughly disgusted with his job, and but for the pending of the election cases he would have presented his resignation forthwith. Now that the election cases have all been disposed of, it is believed that Mr. Chambers is willing, if not anxious, to let Mr. Cockrum succeed to the office.

"There is no reason why Mr. Chambers should desire to retain the office," said a gentleman interested in the courts this morning. "He has a magnificent law practice at Vincennes, and if he remains here he must sacrifice it. As he is just in the prime of life, he can not afford to lose a practice it has taken him years to build up. Mr. Chambers, I think, realizes these facts, and therefore would like to get back into private life. Mr. Cockrum is amply qualified to fill the office, and he has the entire confidence of the administration."

If Mr. Cockrum does not capture the office he will be disappointed. It is well known that Mr. Cockrum has

have seen teams packed in numbers that re-called to the oldest pioneers present the eamp-meetings of long ago. Teams from all the country round converged there. A hill-side of ten acres was entirely occupied with teams. In another place were col-lected several hundred wagons, and altogether the view suggested the baggage de-

partment of an army.

Many thousand people came by train, and, all told, the scene was a moving one. Rev. B. B. Tyler and Rev. J. B. Briney and Rev. L. H. Stine were the speakers, morning, afternoon and evening, respectively. Com-munion services in the afternoon were con-ducted by President C. R. Benton of Butler

ducted by President C. R. Benten of Butler University.

When the trains pulled up to the long platform last night ave thousand people gathered to depart or to see friends off. The teams began to leave in streams. One of them, driven by Albert Cox and ladies, went over an embankment. Horses, buggy and occupants rolled over and over, and had it been any place but at a camp meeting some of the party would have been killed. As it was one of the ladies was considerably hurt. Farewell meetings at the park were held by the cottagers to-day.

DOWN GO THE WOODSHEDS. Corner Lots Almost Doubled in Value

by Reason of Natural Gas. "Have you noticed what a boom the discovery of natural gas has been for people who own corner lots?" asked a contractor who own corner lois?" asked a contractor and builder of a News reporter this morning. "In many instances it has almost doubled the value of corner property. People have no need of woodsheds or coal houses now and all over the city these useless outhouses are being torn down to make room for new residences. I have built twelve or thirteen residences this summer on the rear ends of corner lots, where wood, or coal houses formerly stood, and all the other contractractors have been doing the same kind of work. Unless a man with a corner lot wants to keep a horse and buggy, he can easily make room for an additional residence on his ground, and still have plenty of breathing space."

Why Was He Arrested, Then?

Emmett Lock, arrested as a fugitive from Louisville, has been released. The authorities there do not want him.

Drag Stores as Dram shops.

To the Editor of The Indianapolis News:

I noticed an editorial in Saturday evening's News speaking of drug stores as dram shops. All legitimate druggists are as much opposed to such shops as the general public, and even more so, for they are compelied to do some things which are highly objectionable to them selves in order to hold their trade. Take the best trade, and even some of the people who are continually harping on drug stores, come in the store complaining of being out of fix and delicately suggest that a little bitters might relieve them of their, for the time-being, distressing aliments. Of course, the public is at liberty to suppose what they please as to the nature of the desired bitters. It all amounts to one thing, anyhow. The legitimate and conscientious druggist refuses him. Mr. Customer goes across the street to the dram-shop keeper, or whatever you may be pleased to call him, and gets what he wants. Then that is the last of your good customer, for he will not deal with a man who can not accommodate him, as he calls it. This same dram-shop keeper knows no more about the drugs and medicines on his shelves than does the customer who comes in to buy. It is even doubtful if you get what you ask for in a great many cases. Putting the liquor license up to \$1,000, or \$5,000 for that matter, will not remedy the evil. Pass a strict pharmacy law; make everyhody who goes into the drug business pass an examination before a regularly organized board of examiners. That, and that alone will remedy these evils by barring out these dram-shop keepers and incampetent druggists. Let us hope, for the sake of the public and homest druggists, that the next Legislature will-see that a rigid pharmacy law be passed, and thus two evils be disposed of at one stroke. Spirited Scenes at Bethany's Closing
Exercises—Sermons and Services.

The dweller in cities will live long and go
far before seeing another such sight as was
visible at Bethany Park yesterday. The
railroad is the means of transportation best
known to him. He is almost without
knowledge of the utter dependence of the
country folk upon horses and Tchicas.

Had he been at Bethany yesterday—the
closing day of the encampment—he would
have seen teams packed in numbers that recalled to the addess vision and services.

polis Beats Philadelphia Standing of the Clubs.

When the eighth inning closed on Satur-day in the Indianapolis-Philadelphia game, the score stood seven to four in favor of the me team. The "Quakers," however, took their turn at the bat with a vim, and Woods led off with a hit to right center, which yelded two bases, aided by Sullivan's slow fielding. Hallman followed with a bit which scored Woods, and second and third were full when Clements came with his two-bagger, tieing the score and neces sitating the tenth inning. By this time the erowd had lost hope. But Sommers, who had been playing a good game behind the bat, after three balls and two strikes had been called, sent a beauty over the left field fence, which gave him a home run McGeachy and Bassett followed with sin gles, and it was Bassett's first hit in the game: Getzein advanced them with a sac fice, and two tallied on Seery's sacrifice and Glasscock's two-bagger. Then came Denny with a "homer" over left field fence, altogether making five earned runs. It took the "sap" out of the "Quakers" and they were quickly retired. The score

were bereft of their uniforms and had to play in mongrel and ill-fitting attire. A Forlorn Hope,

We may get the pennant yet. You bet.

In a recent game at Chicago, Umpire Curry fined Faats, of Cleveland, \$100, and President Young has notified Cleveland that ft must be paid. Paatz was also heavily fined at Pitts-

Daily made a great catch of Glasscock's wild throw on Saturday, leaping several feet into the air and pulling down the ball, which was headed full-tide for the bleaching boards. The runner would have gone to third but for that lucky catch, and the error might have lest the game.

headed full-tide for the bleaching boards. The runner would have gone to third but for that lucky catch, and the error might have lost the game.

Chicago. Cleveland, Pittsburg, Indianapolis and Washington are said to favor the percentage plan, while New York, Boston and Philadelphia oppose it. Greater crowds attend the games in these cities when Indianapolis plays than at any other time, and it stands to reason that the Hoosiers should therefore share the profits.

Two championship games will be played on Thursday of this week with the Clevelands, the first at 10 a. m., and the other after the G. A. R., parade in the afternoon. Two thousand extra seats will be placed, and there will be every effort to accommodate the crowd likely to attend. The Clevelanders are great hall players, and next to Chicago, the satisfaction in beating them is of the best.

Ball patrons are showing lively interest in the disposition of Sullivan, now that Andrews has been engaged, and there is a general desire that he be retained and given a trial on first. He formerly played that position, but it might require several days to get him in his old form. Sullivan is a general favorite, and if he will take proper care of himself his popularity will continue. But it rests with himself.

John Healy has been released by Chicago, and there is a probability that Hutchinson and Flint will also be dismissed. It is given out that Healy wants to return to Indianapolis, and it is beginning to dawn upon members and ex-members of the Indianapolis club that the Hoosier capital is not such a "jay town" as they have been making the effete East believe. If Healy can't pitch a winning game for Chicago hacertainly can't for Indianapolis. The present week will be the last visit of Chicago and Cleveland to this city in championship games. Two games will be played with Cleveland on Thursday and one on Friday, and on Saturday there will be an exhibition game between Chenmati, Cleveland, Columbus and Indianapolis of two games to be played in each city with each

DR. REUBEN ROBINSON'S DEATH. Stricken with Apoplexy While Re

s turning from Services. Rev. Reuben Davisson Robinson, D. D., was stricken with apoplexy, last night, while on his way home from the Murphy gospel temperance meeting, and death re-sulted almost instantly. He was going north on the east side of New Jersey street when he was noticed to stagger and fall to the sidewalk. He was carried to his residence, No. 303 North New Jersey street, but died before a physician could be sum-

moned.

Mr. Robinson was for many years a minister in the M. E. Church. He was born in Clark County, Q., in 1818. Beginning in 1843, he practiced medicine for awhile, and in 1845 entered the North Indiana Conference. His first ministerial work began

at Williamsport. He afterward preached at Newport, Logansport, Fort Wayne, Trinity Church, Indianapolis, Elkhart and other places. In 1854-55 he was a professor in Fort Wayne College. He was President of the same institution from 1854 to 1867. In 1877-81 he was Presiding Elder of the Kokomo District, and in 1882-86 he became the Presiding Elder of the Muncie District. His last pastorate was at Greenfield.

At the last Conference meeting Mr. Robinson was superannuated, and has been making his home in Indianapolis for several months. He leaves a wife and three children, two daughters and a son, the latter R. D. Robinson, a member of the Journal city force.

MURPHY'S WINNING WAYS.

He Begins Another Series of Meetings-The Music a Feature.

Francis Murphy is in town again preach ing the Gospel of love and maintaining against a growing opposition, that this ale can save the drunkard and the fallen. Mr. Murphy has decreased nothing in his drawing power. Tomlinson Hall was filled yes terday afternoon and evening, and from the magic of his presence a great wave of kindly feeling swept through the hundreds who came to hear him.

An admittance fee of 10 cents was charged last night, but this had no effect on the size of the meeting. Mr. Murphy spoke with his usual tender eloquence when he rose to read the word of Christ. "I will read from His first sermon," he said. "You know how when a man corner with new ideas when a when a man comes with new ideas, when a reformer is heard of, how everyone listens to hear what he has to say. Christ was a new man with a new doctrine, out of ha mony with the existing machinery." Mr. Murphy made some striking comments on mony with the existing machinery." Mr. Murphy made some striking comments on the words he was reading. "And He opened His mouth and taught them," he read. "He opened his mouth the historian records it. Some people may think this a little thing, but I think it means a great deal. The historian speaks of the parting of his lips. He noticed every movement of the magnificent countenance 'Saying blessed are.' 'Blessed' was the first word he spoke." Mr. Murphy came to "Blessed are they who hunger and thirst after righteousness, for they shall be filled." He was talking to the people who were poorly fed. They knew what it was to hunger and thirst, and Christ knew how to present His teachings to them. There are blessings here for all of us and you may take any one you choose."

When the temperance evangelist had finished the Bible reading, Mr. and Mrs. Wilson, who have accompanied Mr. Murphy through much of his work and were with him in Great Britain, sang "David and Goliath." This was something fine and dramatic. Mr. Wilson's voice was peculiarly adapted to the part of Goliath. There was a tone of supreme contempt in it as it rang out. "Why come ve forth, ve men of Israel."

Bassett (2), Wood, Mulvey, Clements, Wild Pitch—Buffinton (2). Time—2:00. Umpire—Curry.

Other League games: Pittsburg 15, New York 10; Boston 2, Cleveland 1; Chicago 8, Washington 5. The defeat of New York was three stright victories for Pittsburg, and the game was more exciting than its predecessors, Welch was batted out of the box in the fifth inning, and Keefe was substituted, but he fared no better. In the third inning Ewing laid his mask in Miller's way as he was running to home plate, and the latter was so badly injured that he had to retire. It was purposely done by Ewing.

American Association games Saturday: Brooklyn 10, Louisville 0; Cincinnati 9, Columbus 3; Kansas City 7, Baltimore 6; St. Louis 4, Athletics 1.

The Daytons of the Tri-State League, on Saturday, at Union City, were beaten 5 to 1. Greensburg defeated St. Paul 20 to 9.

Association games yesterday: St. Louis 4, Athletics 2; Ransas City 6, Baltimore 3. There was no game at Cincinnati between Columbus and the local team, the authorities having interdicted Sunday ball playing. The management is now seeking grounds outside the city limits, to which cheap excursion trains will be run to all Sunday games hereafter.

words. The more modest reply of the Israelitis was made in Mrs. Wilson's gentler voice. When the song was finished there was great and spontaneous applause.

A solid phalanx of Mr. Murphy's old friends sat on the stage behind him. He brought them out, one by one, to speak. Ras Everson, John Martin, A. Cleaveland, Samuel Campbell, Rev. D. R. Lucas, William V. Wheeler, Dr. W. B. Fletcher and Captain Creary, of Martinsville, were heard. The reformed men, among these, told simple tales, breaking out now and then in amusing, every-day English. All assured the audience that they had stuck, and meant to stick to the pledge.

John Clark, a horseshoer of this city, told his experience. He has a beard which protrudes defiantly, and there is some of the same defiance in his voice. From a man in debt, by abstinence from drink since December 4, he has become owner of his shop.

"Mr. Murphy is the most noblest man on the face of the earth," said Mr. Clark, unconscious of the Shakspearean effect, while the audience laughed at his vehemence. "He gets his work in, in sociability," he continued, hitting the nail as squarely as he had ever hit one in a horse's hoof.

This exactly expresses the Murphy method. The speeches by members of the Blue Ribbon League showed that they stand by and help each other.

Mr. Murphy and his sons will speak tonight and the rest of the week in Masonic Hall.

The New York Giants are doing valiant work on their Western trip.
